Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution is expected to be Low across the whole of the UK on Wednesday, as winds from the Atlantic extend across the country behind a weather front which is moving east.

Tomorrow: Settled conditions with light winds becoming established across most areas, with localised Moderate air pollution possible. Otherwise, generally Low air pollution is forecast.

Outlook: Largely settled conditions with generally light winds away from the northwest UK, with locally Moderate, or possibly High air pollution developing in places. However, Low pollution forecast for many parts.
